DUFOUR 360

dufour-yachts.com

Dufour Yachts has launched the third generation of its Grand Large range with a good-looking 36-footer, available with either two or three cabins. In either case, the boat features a well-lit traditional saloon. Topside, sailhandling is tamed by in-mast furling, a double-ended main sheet and a self-tacking jib.

DUFOUR 390

dufour-yachts.com

The 390 Grand Large is a new member of the Dufour range, and features a self-tacking jib and in-mast furling for simplified sailhandling. Three layout options are available, with either two or three cabins and heads, and an L-shaped or in-line galley. Oak, moabi and teak interior woodwork are also options.

DUFOUR 430

dufour-yachts.com

As with other new entries in the Dufour Grand Large range, the 430 reflects design elements, such as bulwarks and recessed hull ports, that first appeared in Dufour's Exclusive range of larger yachts. This model features two layouts: three cabins and two heads, with the galley forward, or four cabins, with an in-line galley.

DUFOUR CATAMARAN

dufour-catamarans.com/en

Dufour is the latest monohull sailboat builder to expand into the multihull world, and plans to launch its Umberto Felci-designed 48-footer later this year. The boat features a self-tacking jib, a helm station on the flybridge, lots of sunbathing and lounge space, and a choice of a three- or four-cabin layout, plus housing for crew.

EAGLE 53

fastforwardcomposites.com

This fall, Fast Forward Composites plans to introduce a foiling weekender catamaran, described as being built on a semicustom limited-production basis. This carbon-fiber speedster features two en-suite cabins below and an open bridgedeck that's protected from the elements by a solid Bimini top, all powered by a wing sail.

FONTAINE PAJOT ASTRÉA 42

fontaine-pajot.com

The Berret Racoupeau-designed Astréa 42 fits nicely into the FP lineup of cruising and charter catamarans, and it reflects the evolving look of the builder's range. Reverse bows, angular lines, a raised helm with lounge area adjacent and a bright saloon with all-round visibility looks both modern and attractive.

FONTAINE PAJOT 67

fontaine-pajot.com

With its new 67-footer, Fontaine Pajot is creating a new flagship for its range of comfortable, well-performing cruising catamarans. The forward cockpit has room for a jacuzzi; the spacious flybridge will be the place to party. And interior options for three to six cabins will please private owners and charterers alike.

GRAND SOLEIL 48 PERFORMANCE

grandsoleil.net

The new 48 Performance is designed to let a race-minded owner dictate sportiness. Choices start with the hull: hand-laid fiberglass and vinyl ester resin or epoxy-infused carbon fiber. Various deck layout and sail plans are included to match the desire for bringing home the hardware, while living in luxury, of course.
